Oktober 26, 2019 100 YEARS OF ZONTA INTERNATIONAL Jubilee Party of Areas 02 + 05/D29

Woman of Europe 2018

Dear Zontians, both home and abroad! A warm Welcome to the city of Wuppertal!

We are happy to announce the Jubilee Party of Areas 02 and 05 of District 29 under the auspices of our International President Susanne von Bassewitz in the unique historic city hall of Wuppertal.

WE CELEBRATE

- ... of social engagement.
- ... of funding national and international service projects.
- ... of impact on education and gender equality.
- ... of empowerment of women and friendship worldwide.

WE CELEBRATE ... and all husbands, partners, colleagues and friends are cordially invited to celebrate with us!

As keynote speaker for this special evening, we introduce you to the journalist and writer Mrs Düzen Tekkal from Berlin. Mrs Tekkal is engaged in a multitude of political topics. In particular, the Zonta goal "Fighting Violence against Women" is in her special interest. Moreover, she is a strong advocate for the defence of our democratic values – most important today – and has been awarded „Woman of Europe 2018“ for her extraordinary social readiness for action.

Düzen Tekkal is a popular speaker, regular guest in talkshows, but also in the German Bundestag, at the European Union Parliament and the United Nations. In 2019, Mrs Tekkal founded the non-profit-making education initiative *#German Dream*, which is currently communicated in about 1.000 schools in Germany by well-known headliners.

We are very much looking forward to her talk!

WUPPERTAL – AN EARLY CENTER OF INDUSTRIALIZATION IN THE 19th CENTURY

The geographic region along the ‘Wupper’ river was a center of early industrialization at the end of the 19th century. The former industrial metropolis Barmen was a pioneering innovation center for electric weaving looms, lace-making machines and other electrified machines, all driven by water power. Several dye factories for silk, artificial silk and cotton along the Wupper have played a significant role for the development of the city of Wuppertal, formed by merging the cities of Barmen, Elberfeld and four other towns in 1929. Several historic buildings like the historic city hall from 1900 and beautiful residential quarters are evidence from this period of time.

The most prominent landmark of Wuppertal, however, is the suspension railway (German: Wuppertaler Schwebebahn) which was built between 1897 and 1903. It runs along a route of 13,3 kilometres moving about 25 million passengers annually. It is the oldest electric elevated railway with hanging cars worldwide. Since 2018 this railway has a sister project in Japan – the Shonan Monorail between the cities of Kamakura and Fujisawa.

Be sure to book a ticket for a historic trip with the suspension railway.

Physical Theatre at it's best.
Lucy is waiting for you!

The talented performer and dancer Lucy Flounoy (Columbus, Georgia, USA) studies “Physical Theatre” at the Folkwang University of the Arts in Essen and will graduate with an Artist Diploma in the spring of 2020. She was holder of a Deutschland stipend of the Zonta Club Essen 2 in 2017-2018.

After receiving her diploma from Davidson College and Theatre Department Lucy moved to Germany to work as a performer and dance instructor. Her performance will be a **premiere for ZONTA's 100 anniversary**. Be surprised!

More Performers of the Evening

A jubilee party without music? Not possible!

Some very talented and well-known musicians will offer eye and ear candy in addition to the sensual pleasure of the culinary delights served at the buffet.

And last but not least, the last hours of our evening belong to our DJane Katrin and her husband. They will gladly fulfill your music wishes. Have splendid time!
